

SimpleCloud as a G-Cloud provider for the public sector are very excited to share with you a short video about their BIM, facility management, Architectural and Engineering solution. While COVID-19 has disrupted many organisations, schools and universities, our aim is to provide ongoing support to any institution around the world in their strategic roadmap for post-pandemic business continuity with our unique, flexible, cloud-based offering.

Please click on the following link to watch the related [Education video](#) used by many educational institutions including, just to name a few [Rose Bruford College](#) and [ArtCenter College of Design](#)

Please click on the following link to watch the related [BIM and AEC video](#) used by many organisations including the leading corporation in project development, construction and operation [Elecnor](#), and the state-owned consulting and engineering firm, [Isdefe \(Ministry of Defense\)](#) provider of the Spanish General Administration among other national and international public organisations.

We look forward to seeing you at [digitech21](#)
